EFFLUENT CHEMICALS

Become a distributor with a full range of specialist water treatment chemicals and the support of our technical expertise

International distributors wanted

B & V Chemicals is a UK based water treatment chemical manufacturer. The B & V brand is well known and respected, for the quality of its products, R&D and innovation and the excellent technical support provided to our customers. We are a trusted and discrete supply chain partner for agents and distributors looking for a complete range of water treatment chemicals and innovative solutions.

Extensive range

5L, 12.5kg, 25kg, 200L and 1,000L semi-bulk containers are used to supply a range of chemicals including cooling water treatment chemicals, closed system chemicals, boiler chemicals and effluent chemicals. Our customers and distributors benefit from technical support from some of the industries most experienced and knowledgeable people, this allows you to provide best advice and support to your customers and become their trusted partner.

Quality Assured

We are ISO 9001 and ISO14001 accredited and our products go through a rigorous quality control process. Products like Ultralox40® are exclusive and patented.

A growing market

We are looking for overseas partners and distributors who are water treatment specialists who require expert advice, technical support and UK-designed and manufactured chemicals for selling-through in to their own market.

Benefits from B&V Chemicals:
